

June 6, 2023 - 7:30pm - Hey everyone! Here is an evening update on the wildland fire on Centennial Lake in the Matawatchan area. Currently fire crews have been able to flank the fire with their hoses to focus on the hot spots within the burn area and preventative measures around the perimeter of the burn. Although we have made great progress, the fire has not yet been declared as "being held". Crews will continue to work tomorrow with the assistance of mutual aid.

Again the Township would like to share their appreciation to our department as well as other departments and services that have stepped up to assist during this time.
