The Comprehensive Zoning By-law Consolidation/Update for The Township of Greater Madawaska!

The Township of Greater Madawaska has begun the process of updating its Comprehensive Zoning By-law 22-2003. The purpose of the project is to revise the standards and provisions for the development of land to ensure they reflect the overarching land use planning goals and objectives for the Township.

Among other things, a Zoning By-law regulates:

- how land may be used;
- where buildings and other structures can be located;
- the types of buildings that are permitted and how they may be used; and
- the lot sizes and dimensions, parking requirements, building heights, and setbacks from the street.

Township Staff invites the community to provide feedback throughout the process.

Further information will be provided, including times and dates for open houses and public meetings, in the coming months.

If you wish to keep informed of the project, or if you have any comments or questions, please provide your contact information to the contact below.

Thank you,

Stephan Kukkonen
